

January 2010

## **VIDEO POLICY**

The efsli board and/or the organisers of the efsli event will have the right to video record the event with the prior written consent of the presenters and working interpreters at the event. (Participants will be informed that the event will be recorded and invited to inform whoever is making the recording to NOT record them if this is what they wish.)

Participants at the efsli event can video record segments of the event but recording of whole sessions of the event is not allowed. Any recorded material should be for personal use. The recorded material should not be used for research, training or other public purpose without written permission from the organisers of the event.
