

## How to create a mindmap

Patricia BRÜCK, M.A.

Patricia Brueck is an experienced user of mindmaps as an efficient tool for structuring information and memorizing it. This webinar will

1. introduce the theory behind mindmapping,
2. show where and how mindmaps can be used efficiently,
3. present some examples of mindmaps re sign language interpreting and
4. examine some mindmapping online tools.

The participants will work in break out sessions to create a mindmap together and the solutions will be compared and discussed.
